Model and finish availability may vary from country to country. Specifications are subject to change without notice. (Inches rounded from millimeters.)

Ovation's Slimline pickup captures true acoustic tone and delivers a powerful signal with plenty of headroom to combat feedback in high volume conditions.

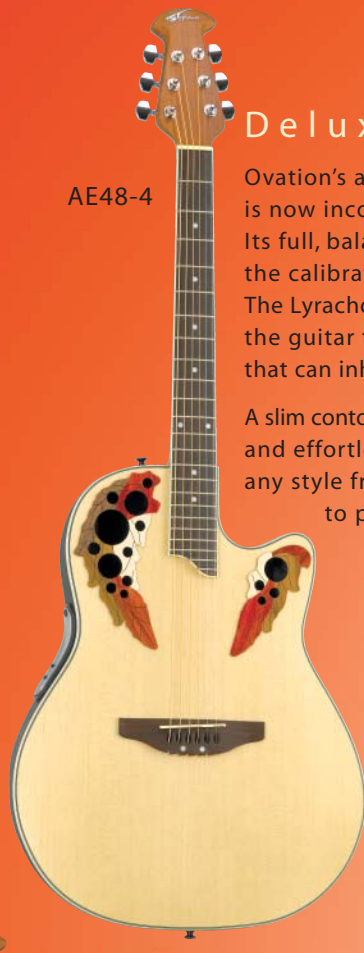

Choose from deep or super shallow body styles.

### Deluxe Series

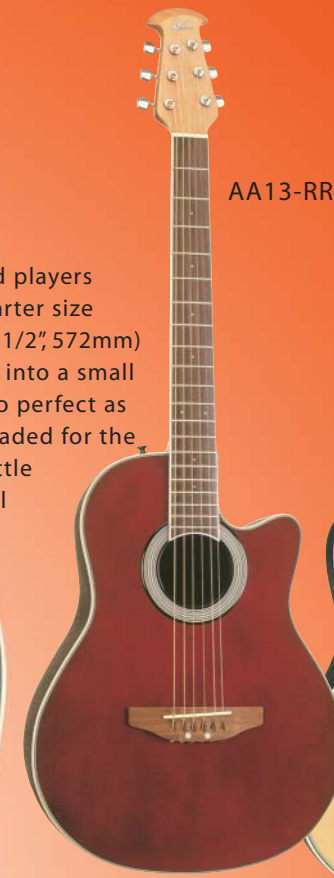

Ovation's award winning multi-sound hole technology is now incorporated into our Applause Deluxe Series. Its full, balanced sound is pumped out through the calibrated top and fine-tuned bracing. The Lyrachord body allows for the back of the guitar to be free of reinforcements that can inhibit sound projection.

A slim contoured neck allows for fast and effortless playing that suits any style from finger picking to power chords.

### Mini-Applause

Designed for younger players and players with smaller hands, the three-quarter size (23 5/8", 600mm) and half-size (22 1/2", 572mm) Mini-Applause puts lots of sound into a small package. Their small profile is also perfect as a travel guitar. Whether you're headed for the beach or the backwoods, these little Roundbacks make a perfect travel companion.

# There's Nothing Like the Sound of Applause

### Summit Series

It was almost 40 years ago when Ovation first rocked the acoustic guitar world with the Roundback body design. Today, that same design and many other technical advancements are available in our affordable Summit Series guitars.

With pro features like on-board preamps, pinless bridges, and detailed fretwork, the Summit Series outshines any other guitar in its class.

### 12-String

The Applause 12-string delivers huge acoustic sound. Strum one chord you'll understand why so many guitarists prefer the Roundback 12-string for studio and live performance year after year.

AE35-4

### Bass

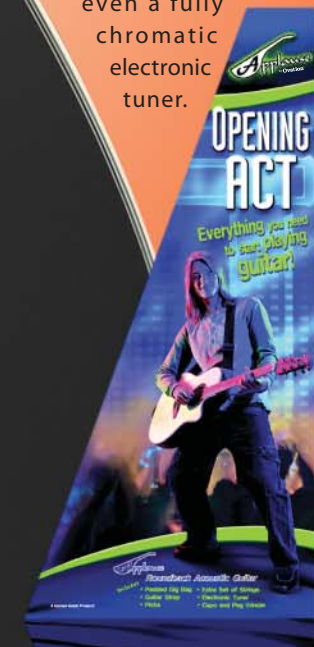

Big Bottom. That's what the Applause bass is all about.

Plug it in and rumble the neighborhood!

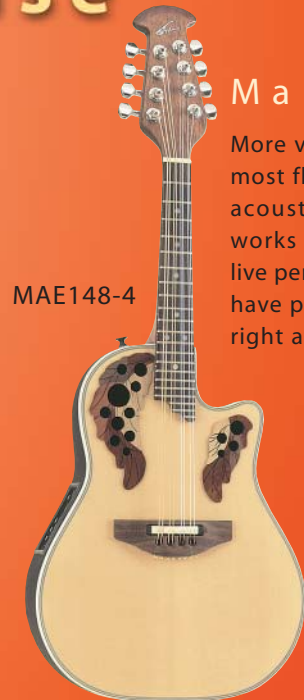

### Opening Act

Everything you need to get started on your way to the big stage, all in one package. Included are a full-size acoustic Applause, strings, strap, gig bag, and even a fully chromatic electronic tuner.

### Mandolin

More volume and clarity than most flatback mandolins, this acoustic-electric mandolin works exceptionally well for live performance. Plug it in and have plenty of tonal control right at your fingertips.

MAE148-4

### Ukelele

Applause acoustic and acoustic-electric ukes have found their way from World Champion Surfing events to reality television shows. These are no "dime-store" ukes, they're the real deal.
